This application is not only a roof extension but actually an extra floor and an extra floor with restricted headroom in a vain attempt to make the proposal visually acceptable - which it does not acheive.

The existing detached house has a well composed elevation with a pronounced dutch gable and a 30 degree slate roof matching the roofs in the area. It is one of a pair of the same pleasant design.

This too large extra floor (roof extension) ruins the existing building and spoils the pair.

The application does not contribte to a Conservation composed of well designed houses - it fact it detracts.

Please refuse.
