2018/6260/P	E Goodchild	03/02/2019 11:23:02	OBJ	<p>I live in flat 1. Given this extension will significantly change the view from my flat I would like some sort of green roof as per the extension that was added at 119 canfield gardens and the roofs from the current extension to the proposed new extension to be matched up. .</p> <p>The view from my flat is nothing like it was when I moved in - the extension to the flat at 119 was supposed to have a garden roof and I now spend most of the year with a view out of my windows of patchy brown grass. And a couple of years ago the roof to 121 was painted battleship grey rather than the white that had been there previously.</p> <p>I get on well with my neighbours downstairs but would like them to rethink the impact to my view. I use one of the rooms as an office so spend a fair amount of time sitting at a desk in front of the window and facing the current roof / garden.</p> <p>I would also like an assurance that works will not take place outside of permitted hours having had problems when the extension to 119 was put up. And that if there is any impact to the fabric of the rest of the property this will be made good. I look forward to hearing back from you.</p>
