2018/6399/P	Andy Cameron	04/02/2019 21:58:54	OBJ	<p>Whilst I generally support the application, I have grave concerns for the provision of refuse management. The area around 8-10 Warner Street is blighted by large, dirty commercial wheelie bins. A good number of them belong to the current tenants of 8-10 Warner Street. They are left strewn all over the pavement, often overflowing and blocking the pavement.</p> <p>They are only on the Camden side of the street, the Islington side manages to stay bin-free. The developers plans for the redevelopment have missed a good opportunity to add a street facing bin store to hide the sites expected refuse production, as typically all new residential developments would normally have.</p> <p>I firmly believe Camden should insist on this.</p>
