Design tips

Installation height 361 mm, installation depth 400 mm, required inside dimension of cabinet 450 mm.

- Door fronts must not have hinges or holes. Take position of handle into account.
- Can also be installed in cabinets with panelled doors with 40 mm frame.
- Consider the installation height of the waste system, installation depth of the sink and the resultant minimum measure of the cabinet right from the planning.
- Minimum recommended plinth height for the installation of MOVEX: 100 mm.
