2018/6267/P	Tanja Di Leta	12/02/2019 12:28:08	OBJ	<p>I have been in contact with Rita Darbar Environmental officer since 15/11/18 about the new plant at the rear of the building since than no action has been taken to sound proof the area. The backyard of Aviation house is used as a workshop even though on paper the "refurbishment" has finished. Constant talking shouting is inflicted on the residents of Thurstan/Holland and Aria house. The proposed open terrace is not a minor alteration, has anyone considered the impact is going to have on the residents, and who is going to monitor the noise? WeWork is a shared work space and people using their services can change frequently. I ask the council to reconsider granting an application for the open terrace. To explain how is it possible that such major works have taken place without anyone monitoring the impact of such works on the residents.</p>
