Informative(s):

- 1 Reasons for granting permission.

The proposed change of use would result in the ground floor and basement area of the existing unit being converted from flexible use A1-A5 to a combined restaurant, bar and live music venue (Sui Generis) and includes some minor external alterations. The current application follows a previous approval for the site for the same development/change use (ref: 2017/4928/P). The current proposal differs slightly from the previous approval in the form of a revised internal layout and revised fire door locations on the north and east elevations.

The occupied ground floor units of the existing buildings within Development Zone B are largely characterised by retail and restaurant uses and the

proposed use is considered to be appropriate for this location as it would contribute to the vitality and vibrancy of the southern part of the Kings Cross Central site and the wider King's Cross opportunity area.

The re-location of two external doors on the north and eastern elevations represent minor alterations that would not have a significant impact on the appearance of the existing building or the character of the surrounding area.

The proposed development would not result in the loss of light, outlook or privacy to neighbouring residents in the area. Details relating to the control of noise emanating from the site as a result of the proposed use have been secured by condition. Furthermore, King's Cross Estate Services maintain strict licensing and management controls across the wider site and the occupier will need to conform with these requirements at all times.

No objections were received following statutory consultation. The sites planning history and relevant appeal decisions were taken into account when coming to this decision. Special regard has been attached to the desirability of preserving or enhancing the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposal is in general accordance with Policies A1, A4, C3, D1 D2 and TC4 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016 and National Planning Policy Framework.
