- the signage from Camden Council was not displayed correctly for all the neighbours to see, hence the deadline of Feb 14 for comments should be extended!

- the new CGI's of the block appear to remove the legal right of way for Middlefield residents to access St Johns Wood Park. The right of way, seems have been replaced with a gate for access to a "bike room" for flat residents. If this is the case, then I think the designers need to go back to the drawing board, as this right of way isn't negotiable. Additionally, there should be no access to any proposed dwelling via Middlefield. This is a private road and access to this road is for residents only!

- The height of the block has not been reduced. Creating a 6 story tower on this site will of course block the light for residents of Middlefield and surrounding areas. The amended submission has clearly not taken this into consideration.
