

Application No:	Consultees Name:	Received:	Comment:	Response:
2019/0856/T	Stephen Williams for and on behalf of the Netherhall Neighbourhood Association	18/02/2019 13:21:38	OBJ	<p>The proposals seek to remove 6 of the 7 trees in the rear of these two buildings. This is an unsupported draconian application. The Sycamore which is the only tree where no application to fell is made is located at the rear boundary. All other trees would need to be removed if an application is submitted for extending into the rear of the gardens as they are in the half of the rear garden close to the rear of the building.</p> <p>You will note that these two buildings were sold to a Development Company by the Anna Freud Foundation and it is intended to develop them for residential use. Recent similar applications and developments in the Fitzjohns and Netherhall Conservation Area (see No 2 Maresfield Gardens) have seen substantial extensions into rear gardens resulting substantial Loss of Green Open Space which is part of the Character of the Conservation Area. Recently in nearby 13 Netherhall Gardens an application was similarly made to fell or heavily prune the 16 trees on the site recently sold for redevelopment. The application was correctly withdrawn with local opposition to the application.</p> <p>There is no reason given for the felling of virtually all the trees at 12/14 Maresfield Gardens.</p> <p>The NNA strongly oppose the felling of the trees in a Conservation Area in the absence of valid reasons.</p>
