2018-6151/P	Adrian O'Brien	19/02/2019 10:26:08	OBJ	<p>I would like to strongly object to this variation application.</p> <p>[REDACTED] since granting the change of use I am already subjected to unreasonable levels of noise and unsocial behaviour which will only get worse with an increased change in the opening hours.</p> <p>Since the change of use was granted, I am already subject to adverse noise levels from groups and individuals standing outside the shop eating and drinking the purchased food late at night. Noise attracts noise and the buskers then appear playing instruments late at night to entertain them. Even during the day there are tables outside (do they need permission for this?) which block the narrow pavement and increase the daytime noise levels.</p> <p>There will be an increase in the unpleasant smells generated from cooking the food and increased litter problems. There are no bins provided and Camden rarely seem to sweep the area. Often in a mornings there are substantial litter issues and sometimes there are bottles and cups left on our doorstep with urine in. Not a very pleasant way to start the day!</p> <p>When returning home at night there often people standing in the doorway to the building which can be intimidating when you are alone.</p> <p>The change of hours will only increase the nuisances mentioned above which are quiet substantial and with so many other food outlets options in the area an extension to the opening hours is not necessary.</p>
