2019/0149/P	pincheson	19/02/2019 18:11:18	OBJ	<p>For Att. Ms N Constantinescu,</p> <p>I live virtually opposite the proposed scheme at 42 elsworthy rd. and object to the application for the following reasons. Having seen the drawings with the proposed elevations of the extension, it is clear to me the elevations both directions, southeast and northwest are not at all in keeping with the style and character of surrounding buildings; the scheme indeed will mar the street in what is a Conservation Area; the project as proposed will clash with the existing house, a fine Victorian era building. Furthermore, the very tall plane tree near the western garden wall is a major element in Lower Merton Rise and should be carefully protected from all .future development on the site. The bench on the south side of the boundary wall was donated by me ...will it be affected by the proposed works ? Consequently the application should not be granted approval..</p>
