Key Facts

Low maintenance Compressive strength 2000 Kg/m² Water holding capacity of 20 litres/m² UV resistant Temperature range 50°C - 80°C Carrier material 100% Regenerated Polypropylene (PP) Carrier measures 540 x 540 x 90mm Drainage Surface 318 cm2/m² Outflow Volume 40 I/m² Saturated weight 65kg/m² 10 year guarantee

<u>The Sedum GrufeTile Explained:</u> Vegetation: Consists of a mix of 8-12 varieties of Sedum. Sedum's are low growing evergreen plants that look after themselves in the main.

Soil: The media mix used is a special substrate prepared specifically for the GrufeTile.

Carrier: Made from recycled HDPE plastic, the carrier performs the following roles – a water reservoir, drainage layer, protection from excessive drying of roots from the airspace below, the cups greatly improve product handing making it easier to install.

Installation: The GrufeTile is equipped with a double-action coupling system: the tabs on the side of each part engage the edge in the gaps between tabs of the facing part.

Sedum Species

1. Sedum acre

4. Sedum hybridum himmerarunchen

7. Sedum album coral carpet

10. Sedum hispanicum minus

fuldaglut

5. Sedum reflexum

kamschaticum

3. Sedum floriferum

6. Sedum album murale

9. Sedum lydium
