2018/5843/P	I Neitsch	21/02/2019 22:27:14	OBJ	<p>Upon inspection of the plans and further to previous comments, the rear window is still overbearing in size and look and I object to these revised plans.</p> <p>My garden is being extremely overlooked by the proposed window. All the other dormers windows in the vicinity are so much smaller for a reason.</p> <p>The proposed plan would take away the privacy I currently enjoy in my garden, to a greater extent than any of my neighbours.</p> <p>The overall scene of the property would not be in character and balance with the surrounding buildings.</p>
