Subject: 2019/1052/T - 211 notice of intent Belize lane

[REDACTED]

Please register my notice of intent to fell a apple tree in the rear garden of 13 Belize lane The tree is rear right when looking at house from highway

The client has agreed to replant a magnolia grandiflora I thought this would be in keeping with conservation area ethos.

The tree is not a good specimen and not very old.

There is only one apple tree

I don't feel you need a map for these reasons but if you feel otherwise let me know and I will forward I can also send you some photos if this would assist but I don't want them posted or attached to registrar.

If your tree officer needs access to rear of property could you let me know so I can arrange access for them

Kind regards
Jon
