2019/0910/P	Robert Livock	27/02/2019 12:56:23	SUPPRT	Please approve this application without delay and/or onerous conditions. It is a sensitive redevelopment of the site; sensibly designed and thoroughly documented to accommodate physical, economic and planning constraints in particular townscape requirements such as pavement widening, route through the site and height limits, CIL and covenant payments. Subsidised housing is quite clearly unaffordable without additional storeys. The public benefits of this application outweigh all disadvantages to neighbouring amenity and such development must be encouraged.
