2019/0120/P	Caroline Davies	03/03/2019 23:27:18	OBJ	I am concerned on two counts: 1.) that the exterior spiral staircase on the plans looks of larger diameter than the present staircase. I am also concerned that having an exterior staircase continues to be a significant security risk for my house as our balconies are adjoining. No other house in the street has an external staircase to their balcony. The existing spiral exterior staircase was put in 25 years ago before planning rules changed however my understanding is that this would not normally be allowed today.
