2019/0344/P	jon korn	01/03/2019 12:37:07	OBJ	<p>Dear Sir/Madam,</p> <p>I have the office on the first floor at 10-12 st Georges mews that directly abuts the location of the newly placed A/C units.</p> <p>I would like to point out a few inconsistencies in the planning application.</p> <p>Planning Point 5. There are not 3 A/C units but 4 of them .</p> <p>Planning Point 22. You cannot see the site from public land . The site can only be viewed from inside my office or the office above .</p> <p>Clement Acoustic report</p> <p>I am not a specialist on acoustics but I can see the location where clement acoustics put their noise sensitive receiver is outside of the lightwell where the 4 units have been placed.</p> <p>I was very concerned when september of 2018 the A/C company installed the units as</p> <ol style="list-style-type: none"> 1 Much of the year I open my back window and didn't want to hear 4 large condensers that point towards the window 2 I suddenly had 4 large unsightly condensers as my new view. 3 When i asked the installers they told me planning permission had already been granted 4 when i checked on Camden planning , I saw that planning was for condensers in different locations 5 The A/C installers promised me 7 times that the building project manager would come to visit my office to explain what was going on but there was never a visit. <p>Emails were also not replied to.</p> <p>I have two points to make.</p> <p>I am not sure why they had to place the 4 condensers directly next to my window . I enclose a photo to show you their position.</p> <p>I question why , when i pay more in business rates than the whole dwelling house pays in council tax , I have to have my view ruined , why cannot the condensers be put in less obstructive position.</p> <p>I also have concerned about the noise that they will make when all 4 are on and whether it will mean I no longer open my back window in the warmer months</p> <p>It would have been much better if the project manager /builder had kept me in touch with what was going on as I am not looking to cause a big disagreement with a new neighbour</p>
