2019/0756/P	Alison Warshaw	06/03/2019 13:04:27	OBJCOMPA P	As owner of Alma Cottage I am very concerned about the size and proximity to Alma Cottage of the proposed 1st floor window which will overlook the Cottage's unique private garden as it will be closer to the boundary wall with Alma Cottage. I further object to the colour and material proposed for the cladding which gives the appearance of a 'black box' which is unsympathetic to the existing rear London Stock brickwork of the terrace and therefore stands out as dominant and obtrusive, clearly visible from both 1st and 2nd floor windows of Alma Cottage. I should like to see a reduced narrow 'arrow slit' window at first floor level (skylights provide adequate light) or the window moved to the right hand side of the extension which will only overlook the roof of the neighbouring ground floor extension. I should also like to see an alternative material and colour used for the 1st floor cladding, less obtrusive, intrusive and more in keeping with the existing rear of the terrace. Alma Cottage enjoys a unique secluded, private position which is of paramount importance to those who live there and the 1st floor of this proposed extension threatens that privacy in nature and design being that much closer to the boundary wall and impacting both the garden and views from Alma Cottage's 1st and 2nd floors. Please notify me of the committee date.
