Full Planning Permission & Listed Building Consent

We request on behalf of University College School a Minor Material Amendment to approved drawing **077_L10 RevF.**

We submit drawing **077_L10 Rev I** for your consideration.

The application is for:

1. Change of hard surfacing of courtyards from flag paving to resin bound with flag detailing and removal of courtyard specimen trees. The specimen trees are within the planted edge.

Reason:

Felt to be a better visual match with existing architecture, than competing with alternative finish and provide more visual openness.

2. Carriage way from resin bound to permeable coloured bitumous surfacing.

Reason:

Durability - to ensure the carriageway is durable and meets slip resistance requirements though the next decades.
