Dear Sir/Madame,

Following the recent concerns of the neighbours regarding planning application for 25 units at Wedderburn rd N24, I would like to express my objections on the grounds of fire hazard and health and safety.

I am a single mother living at 24 Wedderburn Road with my 10 years old daughter and based on the information supplied new development could present a real danger to the neighbourhood. We have already experienced a deadly fire at the building across the road of the same nature.

Please don't hesitate to contact me if I could provide you with any further information or feedback.

Kind regards,
Maria Kondrashova
