RE: FRFC_LDN_38_18a Southampton Road_Planning Portal Reference PP-07578289

Dear Sir/ Madam

Please find attached householder application forms, ordnance survey, existing and proposed plans and elevations showing the nature of the scheme submitted. As you can see we are seeking to extend to the rear at the lower ground and ground floor levels. We are also proposing to replace the non original windows with fenestration matching the original pattern; as can be seen from the upper floors and the neighbouring properties. We feel that the proposal is sympathetic to the fabric of the elevation and will will enable us to significantly improve the internal amenity of the flat and provide better access to the garden.

We look forward to your thoughts and working with you to progress this application.

Kind regards

Fergus Carr, RIBA
