

# Camden Local Plan

2017

APPENDIX 2

## Policy D2 Heritage

The Council will preserve and, where appropriate, enhance Camden's rich and diverse heritage assets and their settings, including conservation areas, listed buildings, archaeological remains, scheduled ancient monuments and historic parks and gardens and locally listed heritage assets.

### Designated heritage assets

Designated heritage assets include conservation areas and listed buildings. The Council will not permit the loss of or substantial harm to a designated heritage asset, including conservation areas and Listed Buildings, unless it can be demonstrated that the substantial harm or loss is necessary to achieve substantial public benefits that outweigh that harm or loss, or all of the following apply:

- a. the nature of the heritage asset prevents all reasonable uses of the site;
- b. no viable use of the heritage asset itself can be found in the medium term through appropriate marketing that will enable its conservation;
- c. conservation by grant-funding or some form of charitable or public ownership is demonstrably not possible; and
- d. the harm or loss is outweighed by the benefit of bringing the site back into use.

The Council will not permit development that results in harm that is less than substantial to the significance of a designated heritage asset unless the public benefits of the proposal convincingly outweigh that harm.

### Conservation areas

Conservation areas are designated heritage assets and this section should be read in conjunction with the section above headed 'designated heritage assets'. In order to maintain the character of Camden's conservation areas, ~~the Council will take account of conservation area statements, appraisals and management strategies when assessing applications within conservation areas.~~

The Council will:

- e. require that development within conservation areas preserves or, where possible, enhances the character or appearance of the area;
- f. resist the total or substantial demolition of an unlisted building that makes a positive contribution to the character or appearance of a conservation area;
- g. resist development outside of a conservation area that causes harm to the character or appearance of that conservation area; and
- h. preserve trees and garden spaces which contribute to the character and appearance of a conservation area or which provide a setting for Camden's architectural heritage.

### Listed Buildings

Listed buildings are designated heritage assets and this section should be read in conjunction with the section above headed 'designated heritage assets'. To preserve or enhance the borough's listed buildings, the Council will:

- i. resist the total or substantial demolition of a listed building;
- j. resist proposals for a change of use or alterations and extensions to a listed building where this would cause harm to the special architectural and historic interest of the building; and
- k. resist development that would cause harm to significance of a listed building through an effect on its setting.

### Archaeology

The Council will protect remains of archaeological importance by ensuring acceptable measures are taken proportionate to the significance of the heritage asset to preserve them and their setting, including physical preservation, where appropriate.

### Other heritage assets and non-designated heritage assets

The Council will seek to protect other heritage assets including non-designated heritage assets (including those on and off the local list), Registered Parks and Gardens and London Squares.

The effect of a proposal on the significance of a non-designated heritage asset will be weighed against the public benefits of the proposal, balancing the scale of any harm or loss and the significance of the heritage asset.

## Enhancing the historic environment

7.42

The Council has a proactive approach to conserving heritage assets. In addition to the application of Local Plan policies the Council protects the historic environment through the following areas of work:

- **Conservation Area Management Strategies:** The Council works with the Conservation Area Advisory Committees to update and support the implementation of the strategies.
- **Heritage at Risk:** The Council identifies buildings and structures at risk and proactively seeks to conserve and where required put them back into viable use, including identifying sources of funding.
- **Local list of undesignated heritage assets:** The Council introduced the local list in 2015 and it will be updated annually.
- **Guidance:** The Council has adopted detailed guidance for the preservation of heritage assets in the supplementary planning document Camden Planning Guidance on design, and Retrofitting Planning Guidance (for sustainability measures in historic buildings). The Council updates planning guidance as required.
- **Area based work:** Conservation and enhancement of the historic environment is a key objective of area action plans and the Site Allocations.

buildings, which can have an impact on areas some distance away, as well as adjacent premises. The Council will therefore not permit development in locations outside conservation areas that it considers would cause harm to the character, appearance or setting of such an area.

#### **Demolition in conservation areas**

- 7.49 The Council has a general presumption in favour of retaining buildings that make a positive contribution to the character or appearance of a conservation area, whether they are listed or not, so as to preserve this character and appearance. The Council will resist the total or substantial demolition of buildings which make a positive contribution to a conservation area unless circumstances are shown that outweigh the case for retention. Applicants will be required to justify the demolition of a building that makes a positive contribution to a conservation area, having regard to the National Planning Policy Framework, Camden's conservation area statements, appraisals and management strategies and any other relevant supplementary guidance produced by the Council.
- 7.50 When considering applications for demolition, the Council will take account of group value, context and the setting of buildings, as well as their quality as individual structures and any contribution to the setting of listed buildings. Applications must clearly show which buildings or parts of buildings are to be demolished.
- 7.51 Applications for total or substantial demolition in conservation areas must demonstrate to the Council's satisfaction that effective measures will be taken during demolition and building works to ensure structural stability of retained parts and adjoining structures. Before planning permission for demolition is granted, the Council must be satisfied that there are acceptable detailed plans for the redevelopment.
- 7.52 In addition proposals for demolition and reconstruction should be justified in terms of the optimisation of resources and energy use in comparison with the existing building. Further details on this are in "Policy CC1 Climate change mitigation".

#### **Use**

- 7.53 Changes in patterns of use can also erode the character of an area. It is therefore important that, whenever possible, uses which contribute to the character of a conservation area are not displaced by redevelopment. Two uses of particular importance to the character of conservation areas are pubs and local shops, especially when they are located in historic buildings. The Council will protect these uses as set out in "Policy C4 Public houses" and "Section 9 Town centres and shops".

#### **Details**

- 7.54 The character and appearance of a conservation area can be eroded through the loss of traditional architectural details such as historic windows and doors, characteristic rooftops, garden settings and boundary treatments. Where alterations are proposed they should be undertaken in a material of a similar appearance to the original. Traditional features should be retained or reinstated

unsympathetic development elsewhere harms its appearance or its harmonious relationship with its surroundings. Applicants will be expected to provide sufficient information about the proposed development and its relationship with its immediate setting, in the form of a design statement.

#### **Access in listed buildings**

- 7.61 Where listed buildings and their approaches are being altered, disabled access should be considered and incorporated. The Council will balance the requirement for access with the interests of conservation and preservation to achieve an accessible solution. We will expect design approaches to be fully informed by an audit of conservation constraints and access needs and to have considered all available options. The listed nature of a building does not preclude the development of inclusive design solutions and the Council expects sensitivity and creativity to be employed in achieving solutions that meet the needs of accessibility and conservation.

#### **Sustainability measures in listed buildings**

- 7.62 Proposals that reduce the energy consumption of listed buildings will be welcomed provided that they do not cause harm to the special architectural and historic interest of the building or group. Energy use can be reduced by means that do not harm the fabric or appearance of the building, for instance roof insulation, draught proofing, secondary glazing, more efficient boilers and heating and lighting systems and use of green energy sources. Depending on the form of the building, renewable energy technologies may also be installed, for instance solar water heating and photovoltaics.

### **Archaeology**

- 7.63 Camden has a rich archaeological heritage which comprises of both above and below ground remains, in the form of individual finds, evidence of former settlements and standing structures. These remains are vulnerable to modern development and land use. There are currently 13 archaeological priority areas in the borough (see "Map 4: Heritage and Archaeological Sites") although these are scheduled for review in 2017.
- 
- 7.64 The archaeological priority areas provide a general guide to areas of archaeological remains, but do not indicate every find site in the borough. These are based on current knowledge and may be refined or altered as a result of future archaeological research or discoveries.
- 7.65 It is likely that archaeological remains will be found throughout the borough, both within and outside the archaeological priority areas. Many archaeological remains have yet to be discovered, so their extent and significance is not known. When researching the development potential of a site, developers should, in all cases, assess whether the site is known or is likely to contain archaeological remains. Where there is good reason to believe that there are remains of archaeological importance on a site, the Council will consider directing applicants to supply further details of proposed developments, including the results of archaeological desk-based assessment and field evaluation. Scheduled monument consent must be obtained before any alterations are made to scheduled ancient monuments. Camden has only one

## Advertisements

- 7.81 This policy applies to all advertisements requiring advertisement consent under the Town and Country Planning (Control of Advertisements) (England) Regulations 2007. Certain types of advertisements do not require advertisement consent and are regarded as having 'deemed consent' as they meet the specifications set out in the regulations. Information on what types of advertisements require consent is set out in Outdoor advertisements and signs: a guide for advertisers (Communities and Local Government, June 2007). Advertisements are only controlled in respect to their effect on amenity and public safety. Further guidance on Camden's approach to advertisements is available in the supplementary planning document Camden Planning Guidance on design.

### Policy D4 Advertisements

The Council will require advertisements to preserve or enhance the character of their setting and host building. Advertisements must respect the form, fabric, design and scale of their setting and host building and be of the highest standard of design, material and detail.

We will support advertisements that:

- a. preserve the character and amenity of the area; and
- b. preserve or enhance heritage assets and conservation areas.

We will resist advertisements that:

- c. contribute to an unsightly proliferation of signage in the area;
- d. contribute to street clutter in the public realm;
- e. cause light pollution to nearby residential properties or wildlife habitats;
- f. have flashing illuminated elements; or
- g. impact upon public safety.

The Council will resist advertisements on shopfronts that are above fascia level or ground floor level, except in exceptional circumstances.

Shroud advertisements, banners, hoardings / billboards / large outdoor signboards are subject to further criteria as set out in supplementary planning document Camden Planning Guidance on design .

### Character and amenity

- 7.82 Advertisements and signs should be designed to be complementary to and preserve the character of the host building and local area. The size, location, materials, details and illumination of signs must be carefully considered. Interesting and unique styles of advertisements and signs will be considered acceptable where they are compatible with the host buildings and surrounding environment. The Council will resist advertisements where they contribute to or constitute clutter or an unsightly proliferation of signage in the area.

**Discontinuance**

- 7.88 The Council takes a proactive approach to preserving or enhancing the townscape and public realm. Where existing advertisements with deemed consent are considered to harm the character and amenity of a building or local area the Council will, where appropriate seek removal of these advertisements, which may include serving of discontinuance notices.

**Estate agent boards**

- 7.89 A certain number and size of estate agent boards can be erected on properties without the benefit of advertisement consent. Areas may be exempted from this deemed consent under Regulation 7 of the 1992 Regulations. In these areas no boards will be granted advertisement consent by the Council because of their effect on visual amenity, except in exceptional circumstances. Please refer to the Camden website for the list of exempted areas.
-
