2019/0730/P	Sanya Polescuk	18/03/2019 18:01:34	OBJ	The proposal for a school in the building which is set apart from the core-residential area would increase the level of traffic passing through the area. In addition, with currently 15 places unfilled in the local New End School, this proposal threatens the viability of the local primary schools. The proposal should be refused.
