2019/0192/P	Corrina Kitchen	18/03/2019 17:03:08	OBJ	<p>Dear sir/madam</p> <p>I'm writing on behalf of the residents here at Sidney Boyd Court and our strong objection to this planning application & the installation of any further communications/telecom masts on the following grounds.</p> <ol style="list-style-type: none">1. Firstly, I'd like to say that at no point have the company involved considered the consequences of the strong radioactive waves on the tenants/residents of Sidney Boyd Court. We have not been consulted & therefore feel disregarded.2. There are families with children who live directly underneath the current masts & are suffering as a consequence. There are 3 children at number 52 who hear & feel the vibrations of the current masts & can feel the heat coming through their ceiling as they are sleeping in a bunk beds & very close to the roof area. They suffer restless nights & headaches & struggle at school. The family at number 50 have 3 disabled children one has severe learning difficulties & the other 2 have chronic symptoms & a heart condition. They are very concerned of the effects of further masts.3. We don't understand how the council can make another contract with yet another mobile phone company that propose putting radioactive equipment on the roof, directly above our heads at a distance which isn't safe, in total we could have another 3 mobile phone companies using our roof tops as a giant hub!4. The safety guidelines state that a distance of 5 metres, which has been exceeded as current equipment there is only a 2-3 metre gap between the residents & equipment. Further affects of additional masts may not present itself until 5-20 years down the lin for adults & for children this is detrimental to their health & development.5. Radiation causes cancer, brain tumors & al lot of undesirable symptoms such as tiredness, low moods, headaches, nose bleeds etc. Not much is known at this stage about the effects of 5G which is the next step of the new masts.6. What we haven't been told is that there is no EMF shielding, the
