| 2019/1110/P     | Marc Potel       | 21/03/2019 11:44:37 | OBJ      | The proposed conservatory at first floor level, by virtue of its height, bulk, design and prominent location on the building would harm our view, the general appearance of the building from multiple properties in the area and not be in keeping with the conservation area, and additionally (as per your decision in March 2011 for a glass balustrade) presumably would be contrary to policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and to policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies. I wish to be notified of your committee date. |
| 2019/1110/P     | A R ABRAHAM      | 21/03/2019 12:16:53 | COMMENT  | having resided there 40+ years I strongly object to the proposed development. It would seriously damage the outlook from the 2nd floor rear flat of [REDACTED] which has patio doors and a balcony overlooking the existing structure. Also the rear ground floor flat of [REDACTED] has a large window overlooking 37 and the light into that living room would be greatly prejudiced by the proposed extension.  |
