2019/0236/P	Nic Humphries	25/03/2019 14:10:28	OBJLETTE R	<p>I object to this project. The proposed design will detract from the clean lines of the Davis and Arnold 1950s design of the blocks. The proposed design frankly looks cheap and unsightly and, as it is not a sustainable greening measure, the long term maintenance or removal will doubtless become a burden on residents in future</p> <p>The money for this project would be much better spent:</p> <p>1. Replenishing the planters which are already part of the design of the blocks and helping residents with low maintenance planting for these 2. Planting shrubs and trees in the neglected green areas in front of the blocks that enhance the original design concept.</p> <p>Post Grenfell, I also feel proposing cladding the blocks with potentially flammable organic matter shows considerable poor judgement and taste.</p>
