This application proposes the installation of an additional external handrail to an existing basement staircase.

The proposed new handrail, which would be fixed to the basement wall of the application property, would be of a similar design and appearance to the existing railing on the opposite side of the staircase.

The site, which is located on the west side of Tavistock Square, is occupied by a four storey property with basement that forms part of a Grade II* listed terrace.

The proposed works will have a neutral impact on the historic significance of the terrace and the contribution that it makes to the character and appearance of the Bloomsbury Conservation Area.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

No objections have been received prior to making this decision. The site's planning history was taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the character and appearance of the conservation area and special interest of the listed building, under s.66 and 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory

Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2018.
