Dear Thomas- thank you so much for your kind e-mail- sorry to reply so tardily-I had an operation last Tuesday and only now am "in the land of living". I am strongly opposed to the large extension of the house at 14 Makepeace Avenue- it will overlook my secluded garden and my little terrace and greatly affect my privacy. [REDACTED]

[REDACTED] I am not travelling anymore and from early spring till late autumn spend most of my days in my garden or on my little terrace- peace and privacy are main main concern. Please take these reservations into account when you make your decision about the planning application. Best regards- Elzbieta
