

"These balconies will look directly into my flat (and Aspris opposite when built) and this planning application is for bigger balconies than the 'Smoking Area' which Camden Council has given (retrospective) planning for on the ground floor (which is already in front of the ground floor my building)

A planning application was submitted in 2016 for the same development, which received objections from residents and Councillors, subsequently that application was withdrawn and then Hallmark built the 'Smoking Area' at ground floor and applied for retrospective planning permission"

Mr Root
