

Application No:	Consultees Name:	Received:	Comment:	Response:
2019/1684/P	David Greene	13/04/2019 18:38:27	OBJEMAIL	This application must be refused , not only is it lacking in any aesthetic quality whatsoever , importantly it sets a dangerous precedent for all the rear gardens in this area . It presents no communal benefit and it removes an area of green space , valuable as part of absorbing rain water and also preserving the use of nature inj our battle agaist climate change and the verdant chartacter of this locality . I can see absolutely no merit in this mean intrusion into a garden space .
