The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans:

HD1139: 8000; 8001; 8002; 8003A; 8004A; 8005A; 8006.

Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission:

The principle of the proposed rear dormer extension is considered acceptable given that there is an existing rear dormer at neighbouring property No. 10 which the application building forms a semi-detached pair with. The erection of the rear dormer window would therefore restore a balance to the pair of buildings at roof level. The scale, bulk and detailed design of the proposed rear dormer considered to have an acceptable impact upon the pair of buildings and the wider conservation area.

Furthermore, the 2x front rooflights and 2x side rooflights are considered minimal additions and would be installed flush to the roof slope fitting for the conservation area.

By virtue of its position on the roof, set back from the eaves, the proposed rear dormer window and rooflights would not cause any undue harm to neighbouring amenity.

One objection was received which has been duly noted. The application site's planning history and relevant appeal decisions were taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the London Borough of Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2019.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. No 020 7974 4444) . Licences and authorisations need to be sought in advance of proposed works.
