| 2019/0275/P | Svetlana Milos | 16/04/2019 10:18:23 | OBJ | <p>I am writing to express my objection to the above proposed redevelopment. In particular, [REDACTED] I am greatly concerned about the potential effects the redevelopment will have on the little daylight and sunlight we currently receive in our rear garden facing bedrooms due to the large brick wall from the above address.</p> <p>I vehemently object to the construction of a further extra floor on the above mentioned property as the redevelopment proposes as it will only further reduce what little daylight and sunlight I receive in the above mentioned rooms.</p> <p>Having owned the property since 1996, I bring to your attention my Right to Ancient Light an English property law that gives house owners the right to receive natural light from and through a window if that particular window has been receiving light uninterrupted for 20 years. Lastly, a study conducted by consultants hired by the redevelopers confirmed that the windows in my flat will receive more than 30% less light contrary to the Building Research Establishment guide (BRE).</p> <p>I hope that Camden Council will take my concerns into consideration when reviewing the above mentioned planning application and in particular the proposed floor extension that would result in an even higher wall for us residents [REDACTED] whose bedrooms face that same wall, thus resulting in even further reduced lighting both daylight and sunlight to our properties.</p> <p>Best Regards, Mrs Svetlana Milos</p> |
