Dear Sir

Re: Planning Application 2019/1103/P
9, Pilgrims Lane

I note the planning application made in respect of the above property comprising a ground floor extension. I occupy a property in Pilgrims Lane which is not directly affected by the proposed extension but nonetheless I would like to make the following point.

I am surprised at the depth of the single storey addition being 5.5 metres which I would have thought is too deep in relation to the depth of the existing Georgian house.

Adding a modern extension to a Georgian house is anyway somewhat contentious but I will leave that to the experts in the field.

Also more effort should be made to ensure that any extension is more in keeping with the existing building.
