

- Very High
- High
- Medium
- Low
- Neutral
- Detrimental

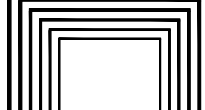

General note: The overall significance of the basement level is low derived from its service use and low level of decorative finish. Many spaces have been significantly altered through the addition of plant and modern fixtures and fittings. However, some simple architectural details, such as skirtings and doors survive, along with some floor finishes and original glazed tiled walls.

Purcell shall be notified in writing of any discrepancies.
