

Camden Development Policies 2010-2025 (superseeded)

Local Plan Excerpt – Policy 15

Protecting community uses

- 15.6 Community facilities provide opportunities for residents to meet, share their interests and access services such as education, health care and family support. We will protect existing community facilities to ensure that Camden's residents have access to a range of buildings and facilities for community use. Proposals involving the loss of a community facility will need to:
- provide a replacement facility that meets the needs of the local population in an appropriate location; or
 - show that the loss would not create, or add to, a shortfall in provision for the specific community use; and
 - provide marketing evidence to show that the premises have been offered at a reasonable charge to community groups or voluntary organisations over a 12 month period. Existing community facilities should be offered to potential new users on the same financial basis as that of the previous occupant. If there were no recent users, the space should be offered at an appropriate rate for community groups/voluntary sector organisations.
- 15.7 We will also resist the loss of local pubs that serve a community role (for example by providing space for evening classes, clubs, meetings or performances) unless alternative provision is available nearby or it can be demonstrated to the Council's satisfaction that the premises are no longer economically viable for pub use.
- 15.8 Sites in community use generally have a relatively low capital value compared with housing sites. In cases where a community use ceases and it has been successfully demonstrated that there is no local need or demand for its continued community use, the Council's preferred use will be affordable housing. We will seek the maximum reasonable amount of affordable housing in accordance with Development Policy DP3, having regard to financial viability. We will expect the proportion of affordable housing to reflect the value of the development site in its former community use.
