1. No.14a, stands to the west of our property and at present we are able to get light through into our kitchen from the window on that side. If a three storey house is erected this will cut out the light.
 2. There is a very fine fir tree at present in the front garden of 14a which also shields our kitchen from the front road, and if this is taken down it will be environmentally wrong and would as stated above reduce the protection from the front road and our privacy and enjoyment.
 3. Whilst we appreciate that in any development there will be considerable noise, the pulling down of the property and the erection will take longer than if the property were increased as it stands, therefore, the noise and dirt level will be much longer.
 4. At the present time the property at 25 Redington Road has created an inordinate amount of noise and is nearing completion it would be nice to have some time to enjoy the peace and quiet.
