FAO Charlotte Meynell,

Thank you for allowing me to comment on planning application 2019/0893/P which relates to the installation of new fencing and electronic sliding gates to enclose the car parks belonging to Safestore, Chalton Street, NW1.

I have attended the location on the 3rd April 2019 in the company with a representative for the applicant so that a full understanding of the area and the problems that are occurring there could be established. I have read the 'Design & Access' statement provided and found that the evidence of the kinds of anti-social behaviour occurring there is a true and accurate representation.

During the meeting I discussed with the representative the considerations to be taken into account to make sure that all climbing risks were eliminated and that adequate 'access control' was implemented. We also discussed the use of defensive planting on the interior to soften the lines of the fencing and also to add extra security... the use of prickly planting can be useful in preventing items being concealed in between the fence lines. All of this appears to have been addressed within the planning application.

I therefore have no objections to this application and if the applicant wishes further help or advice then I will be more than happy for them to contact me.

Kind regards

Jim
