veluxblindsdirect.co.uk

The right blinds and shutters to go with the best roof windows

Whether you want to soften incoming daylight or block it out completely, our extensive range of blinds and shutters can offer you the ideal solution to suit your home and daylight control needs. Available in a wide array of styles and colours, you can be sure you will find the right VELUX blind or shutter for your home.

Many of our blinds also come in electric or solar powered operation, meaning with the use of a simple wall switch you can easily take control of the amount of daylight entering your space.

Pick&Click!®

Just a Pick&Click!™ away

All our VELUX blinds feature the unique Pick&Click!™ mounting system. This patented VELUX installation method means they can be fitted in minutes. No matter what type of VELUX roof window you have – large or small, old or new – all our blinds will fit flawlessly every time.

Safety and security

The **child-safe cordless design*** featured in VELUX blinds eliminates dangling cords to improve safety in the home. **OEKO-TEX®** certified textiles on blackout blinds ensure no harmful substances are used.

Why choose VELUX?

We manufacture the largest range of roof window blinds and shutters on the market, so you'll be spoilt for choice. VELUX blinds and shutters are made especially for VELUX roof windows. They're easy to fit and made for long-lasting and reliable performance.

* All VELUX internal blinds are power operated or cordless operated and fulfil the safety in use requirements in EN 13120:2009+A1:2014 and EN 60335-2-97:2006+EN 60335-2-97:2006/A12:2015

The perfect blind for you

Controlling the amount of warmth and daylight in your home is key to achieving the perfect indoor environment. Your VELUX blinds are an important part of getting your indoor climate just right, giving you more flexibility and control over heat and light. From keeping your bedroom warm on chilly nights, to stopping your extension getting too warm on a sunny day.

A collection of colours

Whether you need light control, heat protection, a sophisticated look or a splash of colour, you are sure to find the right VELUX blind for your needs. Simply choose a great selection of colours and patterns that complement your room. From hidden cords and slim designs and OEKO-TEX® fabrics, our blinds have quality built in.

Comfort and convenience

You can choose from manual, solar powered or electric operation. Solar powered blinds are for solar powered VELUX INTEGRA® or manual VELUX roof windows and electric blinds are for VELUX INTEGRA® electric roof windows.

Smart indoor climate control

With smart, sensor-based operation, VELUX ACTIVE works together with your VELUX INTEGRA® electric or solar roof windows, blinds and shutters.

See p9 for details.

It's all in the details

Our high performance blinds and shutters are built to last. They are rigorously tested to ensure flawless operation even after years of everyday use and exposure to the sunlight. For generations, VELUX engineers and designers have been perfecting our products and patented solutions. That's why VELUX blinds and shutters are always the best choice for your VELUX roof windows.

Improving your home's indoor climate

Your VELUX roof windows bring warmth and daylight into your home. Controlling these elements with the help of VELUX blinds and shutters is key to achieving an ideal indoor climate.

VELUX blinds and shutters provide extra insulation, daylight control and heat protection. In this way they can reduce your home's energy consumption by minimising heat loss during the winter and heat gain on a hot, sunny day. With VELUX INTEGRA® solar or electric powered operation, you get the added convenience of a pre-paired wall switch to open and close easily.

Protect your home against the heat

Passive heating from the sun is a major benefit on a cold day, but can lead to overheating in warmer months. VELUX roller shutters can reduce the heat impact of the sun by up to 94%*.

Protect your home against heat loss

Although VELUX roof windows are well insulated, interior VELUX blackout energy blinds can further reduce heat loss by up to 25%*. This extra insulation is especially important on a chilly night during the winter months.

* The technical values of various accessories are determined through standardized tests and calculations, all in compliance with the international standards EN ISO 12567-2, EN 13363-2 and ISO 15099. Effect depends on type of roof window and glazing.

Please note that when blinds are rolled down the risk of condensation is increased. Therefore rolling up the blind after use and ventilating regularly is recommended.

VELUX ACTIVE For a smarter healthier home.

According to recent studies*, 90% of our time is spent inside, so maintaining a good indoor environment is more important than ever. We have partnered with revolutionary smart home company NETATMO to bring you a smart way to control your home's indoor climate.

Smart sensors measure temperature, CO₂ and humidity levels. Once your chosen parameters have been set the system reacts, and operates your VELUX INTEGRA® products without you having to do a thing – adjusting them automatically to provide the right level of ventilation, light and heat.

Sensor-based ventilation

Smart sensors monitor temperature, humidity and CO₂ levels and operate your roof windows accordingly for a healthier indoor climate.

Smart heat protection

Proactively closes any VELUX INTEGRA® blinds, awnings and shutters based on local weather forecast information, e.g. an increase in temperature.

Easy installation

You can easily set up and install VELUX ACTIVE without any professional assistance, however we're always on standby if you need any further advice.

The kit includes VELUX ACTIVE indoor climate sensor, VELUX ACTIVE departure switch and VELUX ACTIVE gateway.

Power with the grid or the sun

VELUX INTEGRA® solar and electric powered blinds and shutters use mains or wireless solar power to give you remote control at the touch of a button.

VELUX INTEGRA® electric blinds and shutters are designed to work with VELUX INTEGRA® electric roof windows.

VELUX INTEGRA® solar blinds and shutters are designed to work with solar and manually operated VELUX roof windows.

* Technical values are in compliance with EN ISO 12567-2, EN 13363-2 and ISO 15099. Effect depends on type of window and glazing.

Fitted in minutes

You can fit a new VELUX blind to a VELUX roof window of any age or size. That's because all our roof windows feature the unique Pick&Click!™ mounting system, which means your blind can be fitted in minutes.

Time for an upgrade

For out-of-reach roof windows why not upgrade to a solar powered version, which includes wall switch operation, suitable for VELUX INTEGRA® and manual windows.

Quality as standard

They may be quick to install, but they're made to last. All VELUX blinds come with a 3 year guarantee, excluding DBL blackout blinds which have a 2 year guarantee.

VELUX
replacement blinds

See p19.

When is it time for a replacement?

- Renovation
- Redecoration
- Smart home upgrade
- Energy savings
- More flexibility
- Wear and tear

Made to measure – find your roof window code on the sash.

Replace and upgrade. It's just so easy!

Founded in 1941, VELUX is the original roof window manufacturer, giving us decades of experience. You can still order blinds that fit almost every generation of VELUX roof window. So whether you're preparing for a renovation, conversion, relocation or would simply just like to change the look and feel of your room, a VELUX blind is the only choice for a reliable, quality operation.

You can even change your blinds when you change the function of the room to improve comfort for sleeping, playing, cooking, entertaining and much more!

VELUX blinds come in such a wide variety of beautiful designs and patterns that you're sure to find the perfect style upgrade for your space.

How to select and install your blinds

Selecting your VELUX blinds and shutters is easy. Just follow our simple five step process to get the perfect solution for you.

1 Find your window type and size

When you open your VELUX roof window you will find a data plate on top, either on the right or left hand side. Data plates differ in appearance depending on the age of your VELUX roof window.

Find yours from the examples to the right. This will give you the correct type and size of your window model.

From 2014 Type Size

2002-2013

1992-2001

Before 1992

2 Select your blind type

You can choose an interior and/or exterior VELUX blind or shutter that meets your needs including blackout, light adjustment, heat control, or insect protection. Once you've selected your blind, see the relevant product pages for the code and price.

Blackout				Light adjustment				External heat protection		Insect protection	
	Blackout	Duo blackout	*Blackout/ Light-dimming energy	Children's collection	Roller	*Pleated	Venetian	Roman	*Awning	Roller shutter	Insect screen
Heat protection

Insect protection											

* Also available for VELUX flat roof windows

Basic performance High performance Superior performance

3 Select operation method

There are three operation methods to choose from. Manual blinds are a good option when your roof windows are within reach, while our electric or solar powered blinds are ideal for out-of-reach areas.

Blackout				Light adjustment				External heat protection		Insect protection	
	Blackout	Duo blackout	*Blackout/ Light-dimming energy	Children's collection	Roller	*Pleated	Venetian	Roman	*Awning	Roller shutter	Insect screen

Roller blinds

The right light in your living space

VELUX roller blinds are a simple and stylish way to soften incoming daylight and provide privacy. The aluminium side channels allow the blind to be placed anywhere on the roof window allowing you to control the amount of daylight filling the room.

An easy way to soften incoming daylight.

- **Adjust as you need**
VELUX roller blinds can be placed anywhere on the roof window so you can adjust the amount of incoming daylight throughout the day, making them perfect for living rooms.
- **Find the perfect design for your interior**
Whether you are looking to add a splash of colour to your room or something more neutral for a modern interior, with 15 colours and designs, you'll find the perfect roller blind for your living space.

Pleated blinds

Softly diffused daylight for any indoor space

VELUX pleated blinds are an elegant way to provide privacy whilst bathing your room in a pleasant, soft light. You can adjust the amount of light coming in whilst still enjoying your view.

Perfect positioning to suit your individual needs

- **Total flexibility**
Manually operated flying pleated blinds can be adjusted from the top and bottom of your VELUX roof window. This allows positioning of the blind to suit every individual room no matter what direction it faces, or time of day it is.
- **Manage daylight in out-of-reach areas**
Choose VELUX INTEGRA® electric or solar pleated blinds and diffuse sunlight at the touch of a button. Designed to work with your VELUX INTEGRA® roof windows, these blinds are perfect for out-of-reach areas such as a living room or dining room extension.

Upgrade to solar powered for an additional £91.20.

Check your data plate to find the type and size of your roof window model.

Venetian blinds

The best solution for bathrooms and kitchens

VELUX roof windows fill any room with natural daylight and plenty of fresh air. Areas like kitchens and bathrooms can generate high levels of moisture and benefit from added ventilation. VELUX Venetian blinds are an ideal solution for these areas as they are made from aluminium, making them easy to maintain.

The slats can be tilted separate to the blind moving from top to bottom.

- **Cordless operation**
Manually operated Venetian blinds are very easy to use. Unlike traditional Venetian blinds, the VELUX Venetian blind is cordless. You therefore adjust the blind using a control bar attached to the bottom of the blind.
- **Moisture resistant and easy-to-clean**
These moisture resistant blinds are easy-to-clean and come in 9 different colours to suit your personal style and decor.
- **Privacy and style**
With VELUX Venetian blinds you can have both privacy and light. Just tilt the slats in any direction to adjust the angle of the light and achieve the right amount of privacy.

Roman blinds

Versatile and stylish

Enjoy a wide range of decorative solutions with VELUX Roman blinds. Explore the potential of beautiful fabrics and be inspired by the soft styling effects that make this collection refined and original. Should you want to add more personality to your room, VELUX Roman blinds come in a variety of colours and patterns.

Keep your options open with a blind you can easily swap over in a matter of minutes.

• Versatile

The clever design of our Roman blinds mean you can easily swap the fabric in a matter of minutes – a perfect and easy way to update the room's interior.

• Soft lighting effects

With flexible and stepless positioning, block direct sunlight and give your room a gentle glow as the Roman blinds softly diffuse light into the room.

Awnings and shutters

Exterior blinds for heat protection

Roof windows offer twice the amount of daylight than vertical windows of the same size*. With all this added daylight however, it's important to be able to protect your space from added heat from the sun. Take a look at our exterior heat protection sun screening products to help add comfort to your home.

* Source: Johnsen et al, 2006

Awning blinds

VELUX awning blinds provide solar heat reduction whilst ensuring you can maintain the view through your roof window.

- **Sun yes, heat no**
Reduce heat by up to 76%.
- **Quality**
Weather resistant fabric for longer lasting performance.
- **Easy installation**
Install from the inside in minutes.

Roller shutters

From full daylight to complete blackout, VELUX roller shutters offer you additional energy saving and noise reduction.

- **Complete light control**
Keeps out the light and prevents overheating.
- **Energy saving**
Provides insulation in cold weather.
- **Security and noise reduction**
Provides additional security and protection from the elements.

Combine any external awning blind or roller shutter with an internal VELUX blind see pages 18-33.

- *VELUX roller shutter SHL is only compatible with VELUX roof windows produced after 2002.

Flat roof blinds

Heat and light control for flat roof homes

To control the amount of incoming light or to reduce the indoor temperature in the summer – there are some great options to complete your VELUX flat roof windows.

Order your
VELUX blinds and
shutters online at
veluxblindsdirect.co.uk

Pleated blind

Perfect for softening incoming daylight and adding a decorative touch, pleated blinds open and close with a handy pre-paired wall switch.

- Softly diffuses incoming light.
- Enables privacy.

Light-dimming energy blind

The light-dimming, double-pleated blind with aluminium coating between the cloth layers improves insulation and increases indoor comfort. Please note that the solar blind is suitable for flat roof windows with a clear dome only.

- Blackout effect.
- Protects against cold from the outside.
- Enables privacy.

Awning blind

Installed between the window and the dome, transparent awning blinds are solar powered and operated by remote control. They keep the indoor temperature comfortable by filtering the strong rays of the sun and easy to install.

- Provides up to 77% effective heat protection.
- Dims daylight and prevents direct glare.
- Increases privacy.

FMG – Electric pleated

FSK and FMK – Light-dimming energy

MSG – Solar awning

MSG awning blind is not compatible with a VELUX flat glass rooflight.

Check your data plate to find the type and size of your roof window model.

Awning blinds for flat roof windows

- ▶ All insect screens have a delivery time of up to 7 days.
- ▶ Delivery time is in working days from receipt of orders placed before 4pm (UK) and 11.30am (NI).

Insect screening and accessories

VELUX insect screens let you enjoy fresh air – without any unwanted visitors. They are simple to operate, and they fit any VELUX roof window. Insect screens stow neatly away in the slim aluminium top casing when not in use.

- 100% insect-proof net fabric.
- Durable, transparent fabric – does not obstruct your view.
- Improved visibility – lets you enjoy more daylight.
- Mesh ensures perfect airflow.

Please note: Insect screens are mounted on the wall and not the window frame. You therefore need to measure your window opening to get an insect screen in the correct size.

Pole Control ZCT 200 £32.40

The VELUX telescopic pole makes it easy to manually operate centre-pivot roof windows, or out-of-reach blinds when fitted with the ZOZ 085 adaptor. The pole extends from 100cm to 180cm.

Pole extension ZCT 100 £19.20

100cm extension pole for the ZCT 200.

Pole Adaptors ZOZ 085 £7.20

Pole adaptor for VELUX manual blinds that are out-of-reach. Use along with the pole control for simple operation.

Control Unit KUX 110 £121.20

Control unit is for operation of an electrically operated blind on a manual roof window.
