2018/4019/P		26/04/2019 13:48:33	COMMNT	I'm in during the daytime and I think the machine noise will be upsetting. I will probably have to leave the flat when the noise occurs. I'm not sure if the noise can be ameliorated, or if I can be compensated if I have to leave the flat. I have a recurring back problem and also tinnitus, both of which mean I need rest and time to recover when these conditions become difficult for me. I fear the excavation noise will affect my health.
