Details of the pre-application advice received

A pre-application consultation email was sent to the LPA on the 10/4/19 introducing the proposal which included site-specific draft drawings and outlined the need for the existing telecommunications base station to be upgraded and redeveloped. To date no comments have been received.

In a follow up email to the planning department, it was advised that there is a charge of £989.02 for providing pre-application advice. Therefore, it was considered that when balancing the fees of the LPA for informal advice, together with those incurred for a formal determination, the proposal subject to this application would be advanced.

Although no LPA comments have been forthcoming, as the proposal relates to the upgrade of an existing base station and the principle of telecommunication development is established on-site, it was considered appropriate to progress this application and seek the LPA's formal determination.
