Design & Access Statement prepared by Ideal Planning & Design dated 31 January 2019.

Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The proposed shop front is considered appropriate in terms of design and materials to the character and scale of the building. The proposed shop front will reinstate a traditional timber shopfront with timber fascia, frames and stall riser. Overall the proposed alterations, in terms of design, location and materials are considered acceptable and will preserve and enhance the appearance of the host building and the character of shopping frontage along the commercial part of Heath Street and the Hampstead Conservation Area.

Given the minor nature of proposed works they are not considered to harm the amenity of any adjoining residential occupiers in terms of outlook, privacy or light spill.

No objections have been received as a result of the statutory consultation. The site's planning history has been taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies A1, D1, D2 and D4 of the London Borough of Camden Local Plan 2017, and DH1 and DH2 of the Hampstead Neighbourhood Plan 2018. The proposed development also accords with The London Plan 2016 and the National Planning Policy Framework.
