2019/2095/P	Emily Knowles	15/05/2019 22:13:09	OBJ	<p>I am concerned about these development plans which will alter the makeup and character of this existing area. Currently this section of Drury Lane has much character - the historic buildings are used for offices or small shops or flats and due to the size limitations, it naturally limits the overall traffic to the area. A complete reconstruction, facade stripping and modern redesign, and increased foottraffic for new larger shops will compromise the privacy and character of the street. Additionally the added height is disproportionate and will limit natural light. Lastly, significant and sustained construction will heavily impact residents who assist in keeping the balance between soul-less office space and a life-filled area. I strongly urge the building permission committee to reject such a significant reconstruction proposal in order to maintain the integrity of Drury Lane.</p>
