I would like to have the stairs on my flat to connect with the flat above mine so it will be bigger.

Camden Council Environmental health ([REDACTED]) has served prohibition orders on Flats 3 & 4 since they are too small. However they have stated that if the two flats are combined by means of a staircase then the prohibition orders can be removed and this much needed accommodation which also has a private garden could be Brough back in to much needed housing to help relieve the housing shortage.

Without this proposed staircase these lovely flats will remain empty just collecting dust and cause further homelessness in the Burrough of Camden.
