## Appendix E

**Key**

- Approximate site boundary
- - - Extent of proposed basement
- - - Assessed extent of surface settlement due to inward yielding (refer to CIRIA report C760 figure 6.15b)
- █ A Facade considered vulnerable to movement due to basement excavation

Table summarising details of facades under consideration

| Location | Storeys | Height (to eaves) | Description |
|----------|---------|-------------------|-------------|
| A        | 5       | 16.8              | Apartments  |
| B        | 2       | 6.6               | Residential |
| C        | 1       | 3.2               | Residential |
| D        | 1       | 4.02              | Residential |

**Revisions**

- A. Lateral extent of surface settlement added.

**Title**  
Plan showing assessed extent of surface settlement contours as a result of basement excavation

**Scale**  
1:200 at A3

**Drawing number**  
BIA01A
