Subject: Application number: 2019/1515/P

dear camden
[REDACTED]

i strongly object to application no 2019/1515/P

i agree with everything stephen williams for the Netherhall association has written and fully support his comments

we live in a conservation area one of the features is the greenery. why should the developers feel it necessary to cut down trees? and strip greenery i strongly object to this. my bedroom window (window 76)looks out at greenery trees they want to destroy this is my outlook and amenity indeed for the whole house. this should not be allowed. i also notice they want to build 1 metre to our boundary so then where will new greenery and trees be planted if this is the case? the council has a duty of care towards retaining the character of the conservation area. looking at greenery between the buildings is one amenity for all. I've also looked into all this and these trees are classed as category C by the developers but they are in a grouping and kim gifford who is preparing tree reports for my family say these trees are category B and offer amenity and he should know as he was formerly chairman of the a society with great experience. this is a very important point and one the council must look at further. london has also huge air pollution problems - greenery helps alleviate this problem as we all know. the developers should work around the existing fauna not bulldoze their way in attempting to disregard this.

i strongly object to the double basement plans for obvious reasons

i strongly object as window 78 serves our habitable room where my sister does her school work at her desk. if granted, this development will take 50% of our light through window 78 in this space. not acceptable. the planning inspectorate highlighted this in his report i believe.

i strongly object to the nasty and cheap design which has nothing to do with the existing building also the window design is poor and not in keeping with the neighbouring properties its all a ridiculous proposal should be turned away.

please disregard this application

thank you

e. bacal

ps / please reply to me confirm receipt of my mail. thanks
