dear camden

i object to application 2019/1515/P

[REDACTED]
i strongly support their forthcoming reports from tree specialist and planning consultant respectively which will soon be sent to the council
i really don't understand why these developers can't make sympathetic plans - all their plans are aggressive to neighbouring properties and the fauna and trees in the conservation area. they are visually unsightly and offer no concern to the neighbourhood and especially no [REDACTED] netherjhall gardens. i do not like this style of operating. these plans will compromise the light in the downstairs habitable room by 50%. extensive overlooking loss of privacy by terraces, taking away trees for no reason just so they can max out on their square footage, 2 storey basement digging deep into the back garden and loss of green spaces. its all a terrible ploy. i hope the council will see through these plans and rightfully dismiss.
thank you
mrs z bacal

ps can you let me know you have received this email
