

Replacement Tree Planting as discharge of Condition 8

1. Species: Common Beech and/or Wild Service Tree - maximum 6 trees
2. Trees to be underplanted within the Sycamore "woodland" area under suitable significant gaps within the canopy to enable best establishment. Locations and number of replacements to be agreed with LA prior to planting in the first available season after completion of the project
3. Tree sizes: Bare root/rootballed feathered trees up to 1.8 - 2.1 metres in height

Any questions please let me know.

Best regards

Richard Wassell
