Revision Notes
Rev A: Issued as Non-Material Amendment on 10.05.19 - Crittall style steel framed glazing to rear extension at Lower Ground Floor amended to be metal framed large contemporary glazing. One of the new window openings at Lower Ground Floor changed from a fixed window to be a tilt-turn window in side elevation. Glazing to rear elevation at Ground Floor amended to be more in keeping with existing pattern of sash windows and double doors with fanlights. Replacement rear dormer made slightly narrower and moved into a more central position due to structural requirements with triple aluminium framed window.
Rev B: Issued as Minor-Material Amendment on 23.05.19 - Enamel Panels to Lower Ground Floor extension colour changed from colour to match existing to dark blue colour to make the modern design of the later addition stand in greater contrast to the host building whilst not harming any views of the building as the lower ground floor extension is not readily visible in any public view/street scene.
