2019/1933/P	Aarish Patel	23/05/2019 23:15:48	OBJ	<p>I own the building directly to the side of the proposed extension.</p> <p>The distances between the proposed additional floor and our properties is very limited and therefore there will be little scope to avoid overlooking concerns.</p> <p>The hostel's recent refurbishment of the kitchen in the ground floor was with complete disregard for noise levels. It is an echo chamber which reverberates into our home when all students congregate. Equally this would be an issue in this application as the first floor directly behind the bedrooms of our home. Students have no long-term incentive for good neighbourly behaviour. During the summer when everyone's windows are open these students are chatting in the cooler upper bedrooms and their chatter echoes throughout the area into the night.</p> <p>More living space in the home would mean more students drinking, smoking, and loitering on the street. On a daily basis there are always a handful on the sidewalk, many times a lot more. This is a concern for us as we have small children and we do not know the background of these people.</p>
