

OFFICE BLOCK DEVELOPMENT BY BALCAP RE

Land to the rear of 1-3 Britannia Street | May 2019 | Construction Management Plan Update Meeting

Aerial view of the site and surrounding area

Dear Neighbour,

In June 2017 Balcap Re Ltd received planning consent to build a contemporary office development to the rear of 1-3 Britannia Street.

On 25 April, the project team held a meeting with neighbours to introduce the site contractors, Mayer Construction, and discuss the latest version of the Construction Management Plan (CMP).

Since presenting the revised CMP at the meeting, the document has been made publically available on the Britannia Street project website, and we are currently in the process of receiving comments from the community.

Once these comments have been reviewed by the project team, we will present our responses and any changes to the CMP at the upcoming CMP liaison group meeting on Wednesday 22 May (details overleaf).

The CMP will then be finalised and submitted to Camden Council for sign off. Once the document has approval, construction works can begin on site.

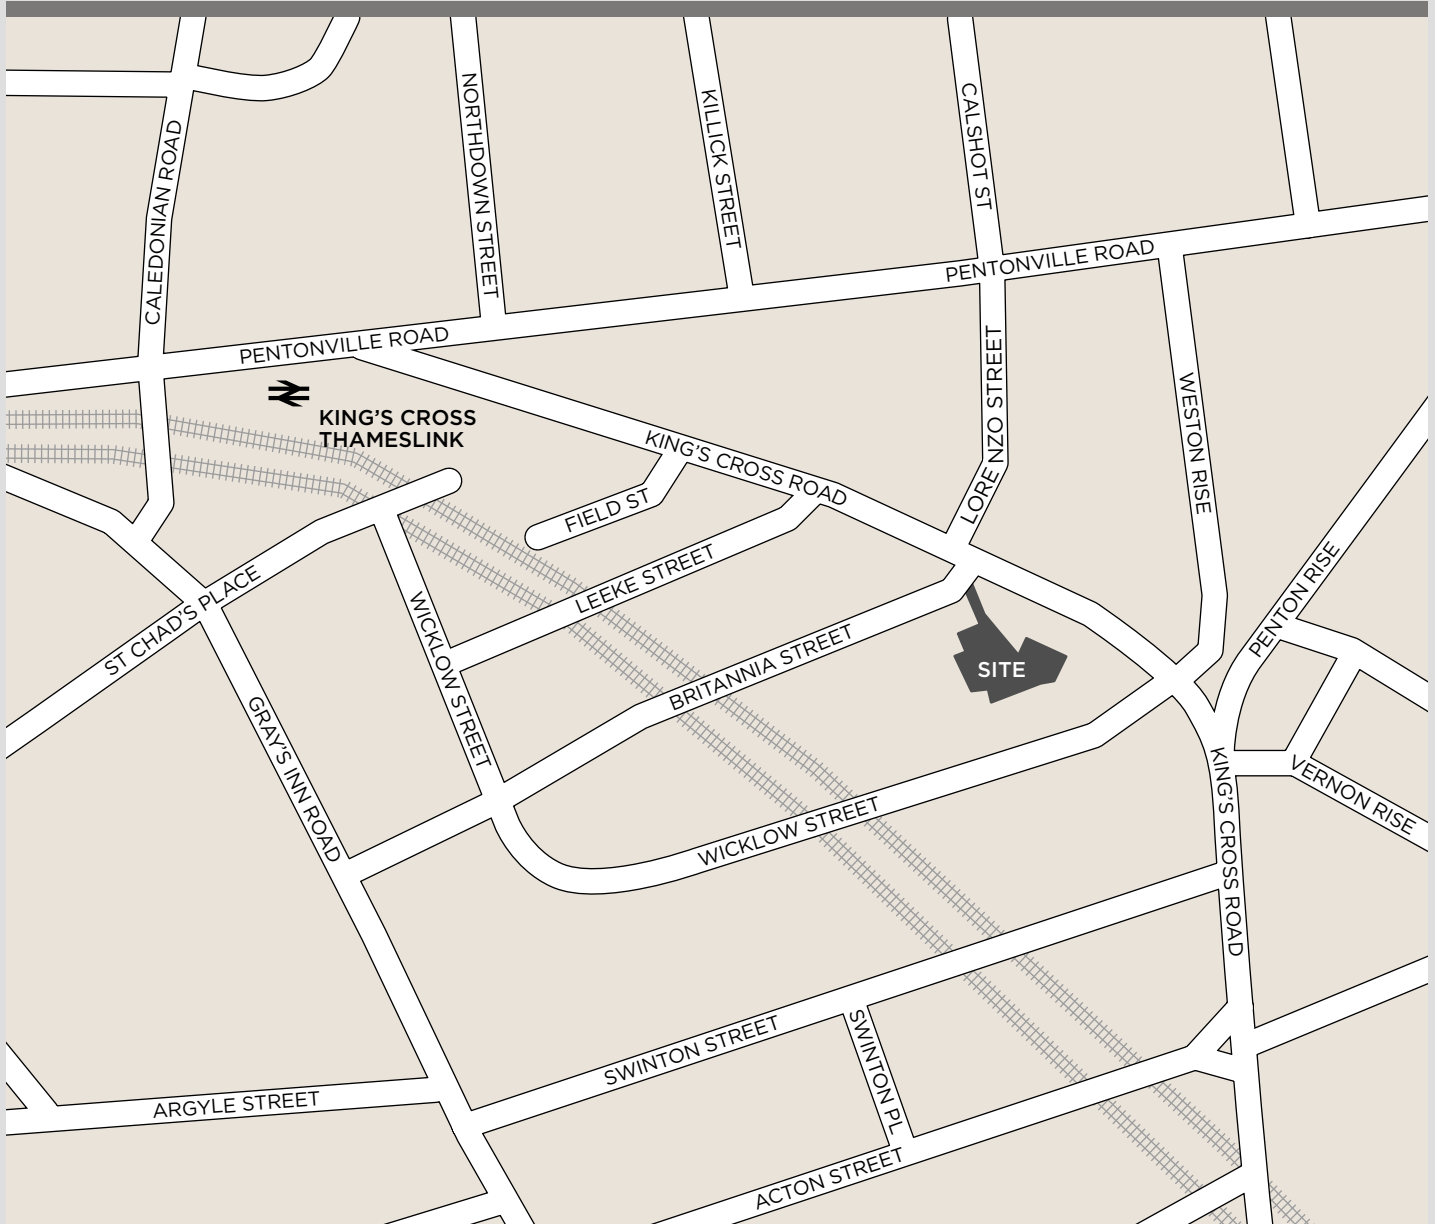

We hope to see you at the meeting on 22 May. Please RSVP to britanniastreet@fourcommunications.com.

Thank you,

The Project Team
