2019/2375/P		26/05/2019 21:26:42	COMMNT	Fully support Abacus relocation. It is an outstanding school for the local community. The school has a car free ethos.
2019/2375/P	f	27/05/2019 18:06:30	OBJ	<p>I strongly object to this application.</p> <p>There is no need for additional school places in Camden. There are plenty of places in community and schools within a mile of the proposed location of the school and within a mile of the original proposed school.</p> <p>The building is not in the area originally approved by the DfE.</p> <p>If the school is relocated, it will significantly increase the traffic in the area which is already significant and impacts on the environment. This will have an impact on the residential amenities of the community.</p> <p>All schools generate noise. This school will be no different and will have an adverse effect on the residential amenity of existing neighbours.</p> <p>No school has any way of enforcing any traffic management scheme and it is disingenuous and immoral to punish children when their parents drive them to school as the school has said they will</p> <p>There is a strong need for more police presence in Camden. The building would make a significant contribution to the community if it continued as a police station.</p>
2019/2375/P	n	26/05/2019 20:50:58	COMMNT	<p>Given the age of children and proposed catchment area it is obviously that most school runs will be by car.</p> <p>This building is on a critical road junction. Any additional traffic is likely to have a dramatic impact on both N-S routes (East Heath Rd and Haverstock Hill as well as E-W routes between the two.</p> <p>The school is likely to impact materially and negatively congestion, pollution and noise.</p>
2019/2375/P		26/05/2019 20:50:43	COMMNT	<p>Given the age of children and proposed catchment area it is obviously that most school runs will be by car.</p> <p>This building is on a critical road junction. Any additional traffic is likely to have a dramatic impact on both N-S routes (East Heath Rd and Haverstock Hill as well as E-W routes between the two.</p> <p>The school is likely to impact materially and negatively congestion, pollution and noise.</p>
2019/2375/P		26/05/2019 20:36:05	OBJ	I strongly opposed this application. There is no need for another school in the area, and even less for a school whose catchment area is not Hampstead but Belsize Park. The further borders of the catchment area are at a distance that will make impossible for children of a young age not to be driven to school. This will therefore have serious consequences in the traffic management of Downshire Hill and the other roads in the vicinity. The levels of environmental pollution and noise will also increase to the detriment of the neighbours of Hampstead, who on top of it cannot send their kids to such school!!!

2019/2375/P		24/05/2019 18:08:57	SUPPRT	I support this application. Abacus is an integral part of the community and all residents would benefit from its move into the old Hampstead Police Station.
2019/2375/P		26/05/2019 22:33:28	COMMNT	Very happy to support Abacus to find its permanent house in the old police station. It is an outstanding school and will revive an old building to shine by giving the basis for a great future for so many children that need such school.
2019/2375/P		24/05/2019 16:46:19	COMMBOB XI	I support the move of Abacus into the old Hampstead Police Station. There are no other options for secular state schools in Belsize Park and without Abacus families will be forced to move away from the community.
2019/2375/P		26/05/2019 17:45:22	NOBJ	I am 100% supportive of the change of use of the site from a police station to a one-for-n entry school. Abacus Belsize Primary is the perfect candidate to occupy the premises and provide the much needed non secular state education to the families of Belsize Park.
2019/2375/P		26/05/2019 17:49:47	OBJEMPER	there are already too many schools in the area and policy is stop further ones. There is no way a primary school; a distance such as this from its chosen catchment will be anything like car free and there will be no enforcement if it isn't. Traffic and pollution levels are excessive and the schools balance in the area is already tilted to the extreme. We need more variety rather than more of the same.
2019/2375/P		27/05/2019 13:01:00	COMMEMP ER	The change of use from A police station to Abacus primary school is fantastic. The presence of a state school is much needed in the Hampstead/Belsize Park area. It is an amazing, warm and excellent school that is an asset to the neighbourhood and keeps families in the area. We live on Haverstock Hill and can't wait to be able to walk them to school each day. The location of the Police Station is perfect and will make sure my kids are close to their school, their friends and the fantastic facilities this area has to offer. The pupils of Abacus Primary deserve this building close to the HEATH. Over the last 6 years this excellent school has proven itself. It is thriving. This local school needs to be local again!
2019/2375/P		26/05/2019 20:51:00	COMMNT	Given the age of children and proposed catchment area it is obviously that most shool runs will be by car. This building is on a critical road junction. Any additional traffic is likely to have a dramatic impact on both N-S routes (East Heath Rd and Haverstock Hill as well as E-W routes between the two. The school is likely to impact materially and negatively congestion, pollution and noise.
2019/2375/P		24/05/2019 15:59:30	SUPPEMAI L	We support Abacus School for this proposed change of use. There is a clear need for a secular primary school in the Belsize Park area and Abacus is a well-established and outstanding school that needs to move into its permanent home.
